

KILI CYCLING TOURS offers a cycling experience around Garraf. Have a ride through vinyerards and enjoy some sport hours, some nature and a visit to a celler , all of it in E.Bikes (MTB) .

Winery Tours / Can Ràfols dels Caus.

The landscape around Sitges is surrounded by vinyerards and “masías” (old typical catalan houses), which make this route a very special one.

Can Rafols dels Caus is a celler set in the heart of Garraf. It stands out because it is embedded in big rocks and absolutely integrated in the landscape. This is one of the most unique and attractive cellers in Europe.

KILI Cycling Tours takes you around vinyerard paths so that you can enjoy a different and special experience in the Natural Park of Garraf.
